PROFILE

Creative and results-driven Full Stack Developer with a strong passion for crafting modern, responsive, and user-focused web applications. Skilled in both frontend and backend development, I specialize in building efficient digital solutions using technologies like Django, React, and PHP. I'm committed to clean design, smooth functionality, and continuous learning to deliver impactful results for clients and users alike

WORK EXPERIENCE

Full Stack Developer (Intern) 2025 - PRESENT
HooYia Technologies, Bafoussam, Cameroon

- Completed a 6-month internship focused on full stack web development and system design.
- Collaborated with senior developers to build and maintain scalable, responsive web applications using Django, React, and PHP.
- Contributed to the development of an e-learning platform with features like user authentication, course management, and live class integration.
- Implemented API integrations, optimized database performance, and ensured application security using modern web standards.
- Participated in code reviews and team discussions to enhance project quality and maintain clean, reusable code.

Freelance Full Stack Developer 2024 - 2025

- Designed and developed multiple professional websites and web applications for clients across various industries.
- Delivered custom solutions that improved user engagement, business visibility, and workflow automation.
- Managed projects from concept to deployment, ensuring responsive design, cross-browser compatibility, and strong backend logic.
- Integrated secure authentication, email systems, and third-party APIs to enhance application functionality.
